The last week EA has published a news about a coming soon eco pack with a Renault electric vehicles for free at The Sims 3 Store.

In 2011, Renault will revolutionise the car industry by launching a range of zero emission electric vehicles. To celebrate, Renault and The Sims team are releasing FREE Renault Electric Vehicle Packs for your Sims! The Electric Vehicle Pack (EVP) will comprise of one of the latest Renault Z.E. cars and a number of sustainable environmental items including solar panels and a battery recharge station for you to use in The Sims 3.

Download the pack, including the new Renault Twizy A.E. and place the items on your lot to lower your bills! Be green, save your Sims some Simoleans and Drive The Change!

You can check out more about Renault Z.E. car at www.renault-ze.com or join the [Renault Z.E. fan page](#)

and learn more about the amazing Electric Vehicles coming soon to The Sims 3.

A week later, thanks to [Simprograms](#) we can give you some further details...

[Now this pack is available for download HERE!](#)

The following are 2 pictures that Judhudson has kept from the Store:
